

Fuel Additives

Max44™

Fuel system deposits reduce power, waste gas, increase emissions, and can be very difficult to remove. The most effective method of removal is extended exposure to a very powerful cleaner. Max44 mixed in a tankful of gas will continuously clean the injectors for a few hundred miles to get "the best" results!

- **Improves acceleration**
- **Eliminates hesitation**
- **Eliminates knock, ping and "run-on"**
- **Improves starting**
- **Controls octane requirement increase**
- **Saves gas!**
