

STARVISOR II™ VL22 SERIES - LED VISOR LIGHT

VL22

The STARVISOR II™ series lights give you plenty of possibilities to customize to your individual needs. The STARVISOR II™ VL22 series offers 30 different customer selectable flash patterns along with Auto-Tilt™ Automatic Activation. It automatically switches on when visor is pulled down and automatically switches off when visor is lifted up. A high impact resistant housing, vibration resistant LED technology, and micro-controlled solid state flasher allow for long life. Power indication LED allows you to see ready status. Auto-voltage adjust compensates for varying vehicle voltage (10V - 16V DC). Designed to be visor mount only. Ships complete with cig plug, hook and loop fasteners, and instructions.
